

COLOURCOTE / VELOGRIP

Vibrant, colour-fast surfaces engineered for safety

ColourCote is a durable, resin-bonded pigmented aggregate system ideal for use in projects where colour delineation and anti-slip properties are required, such as bus lanes, cycle routes, railway crossings and footpaths.

WHY COLOURCOTE?

- Maintenance-free, durable and colourfast
- Low-energy, cold applied installation
- Base can be pigmented to enhance vibrancy
- Fast application and curing times

COLOURCOTE BLUE COLOURCOTE RED COLOURCOTE YELLOW COLOURCOTE GREEN

ColourCote & VeloGrip use Hitex EcoGrip Binder system, BBA Certificate No. 14/H212

VeloGrip is an economical surface treatment for coloured lane demarcation in cycle schemes. VeloGrip offers anti-skid performance without the sharp, abrasive texture of many cycle route surfacings. VeloGrip has many other uses, including footpaths, coloured parking bays and wheelchair ramps.

WHY VELOGRIP?

- Excellent skid resistance in both wet and dry conditions
- Smooth, even surface texture with colourfast pigments
- Tough and durable with a long service life
- Base can be pigmented to enhance vibrancy
- Low-energy, cold applied installation

World Class Road Marking, Surfacing and Repair Solutions

Hitex International Group are a leading solutions provider of road safety markings and surfacings, road repair and decorative surface systems.

Through targeted product development, we have maximised the performance of our decorative range of surfacings to offer attractive, cost-effective and maintenance-free alternatives to traditional products. Every aspect of our installation is designed to perfectly blend durability and strength with aesthetic appeal.

Working with design engineers, landscape architects and local authorities, we continue to develop and expand our range of surface finishes to accommodate varying design criteria, as well as different climatic and environmental conditions.

Decorative Installation

Our full decorative range is professionally installed by Textureprint Ltd, part of Hitex International Group. For more information or to receive a quote please contact us on 0151 356 2222, or visit www.hitexinternational.com

 Shaping Our world
Decorative Surfacing Solutions

ECOSSET

Naturally beautiful,
smooth surface finish

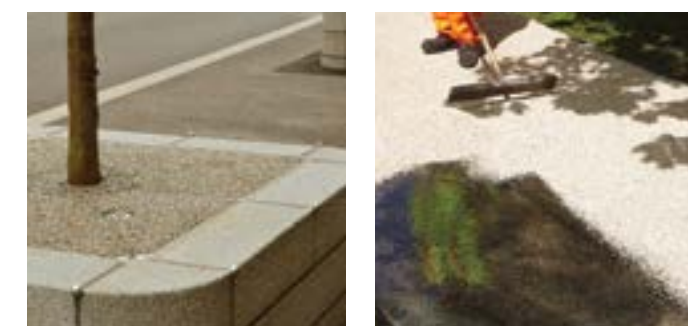

EcoSet resin-bound surfacing is designed to mimic the natural beauty of loose aggregate without the associated maintenance costs. The resin coating enhances the natural shades within the aggregate, providing a highly attractive finish that feels smooth to the touch.

Available in a range of subtle blends designed to work in harmony with the surrounding environment, EcoSet is the perfect solution for projects such as town centre enhancement, pedestrian zones, heritage areas, and for parks, schools and hospitals.

WHY ECOSSET?

- Smooth finish removes trip hazards
- No growth of weeds/vegetation
- Ideal for decorative tree pits
- Fixed surface prevents loss of stone
- Laid directly onto existing surface
- Hard-wearing and durable

- ✓ SUDS Compliant
- ✓ Non Toxic
- ✓ Odourless
- ✓ Low Energy Installation

ECOSTONE

Attractive, hard-wearing,
textured surfacing

EcoStone is a tough, durable surfacing consisting of decorative stone permanently bonded to a resin base. Available in a range of aggregates, including non-slip grades, EcoStone surfacing perfectly balances function with aesthetic appeal.

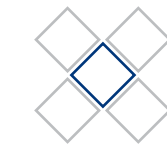

WHY ECOSTONE?

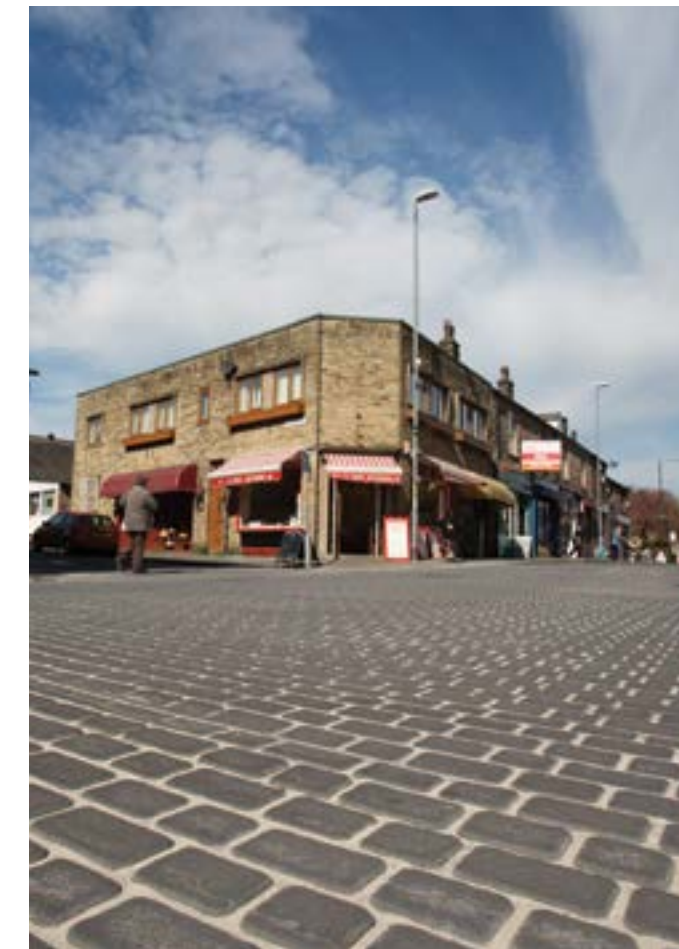

- BBA Approved binder system
- Anti-slip grades for maximum safety
- Wide choice of aggregates
- Extremely hard-wearing with a long service life
- Ideal for ramps and footpaths

HITEXPRINT

Innovative solution for super tough,
maintenance-free surfacing

HitexPrint is an innovative thermoplastic surfacing system designed to mimic traditional surfaces such as block paving, brick setts, cobbles and flagstones. The finished effect of the embossed surface is both attractive and functional. HitexPrint has been developed to offer significant advantages over competing systems, and provides an extremely durable, hard-wearing and flexible surface.

WHY HITEXPRINT?

- No prior site excavation necessary
- Fast installation & curing times
- No growth of weeds or vegetation
- No trip hazards
- High skid resistance for improved safety
- Can be reflectorized for enhanced visibility (white only)

HitexPrint is available in a wide range of colours, patterns and finishes, and is the perfect solution for:

- Traffic calming schemes
- Pedestrian crossings & walkways
- Housing developments
- Schools, hospitals and university campuses
- Heritage Sites
