

ENVIRONMENTAL MANAGEMENT SYSTEM MANUAL

BS EN ISO 14001: 2015

Environmental Policy

Hitex International Group is committed to operating its business in an environmentally sound and sustainable manner. We recognise that concern for the environment is an integral and fundamental part of good business management and are committed to ensuring that environmental issues are considered carefully within the organisation when decisions are made at all levels.

Hitex International Group aims to be a market leader in the road marking and surfacing sector, through successful delivery of road safety solutions in a manner that minimises adverse environmental impact. We recognise that our activities have an impact on the environment and are committed to regularly reviewing our processes to achieve continual improvement in environmental performance and the prevention of pollution.

We aim to achieve improvements through the implementation of an Environmental Management System, compliant to the requirements of ISO 14001, which will facilitate achievement of the following policy objectives:

- To fulfil all compliance obligations including complying with all applicable environmental legislation which are pertinent to our environmental aspects, as a minimum standard of our day to day business operations
- To continually improve the effectiveness of our environmental management system to enhance our environmental performance using environmental objectives, internal audits and management review
- Commit to protection of the environment including prevention of pollution and protection of biodiversity and ecosystems
- Continue to design, research and develop our products to optimise environmental performance and minimise adverse environmental impacts, particularly in respect of raw materials
- Regularly audit our processes to monitor environmental performance and ensure the prevention of pollution
- Understand and manage responsibly all areas of environmental risk related to the significant environmental aspects of our products and processes
- Encourage all employees and contractors to act in accordance with the Environmental Policy and provide information and training to facilitate the achievement of our environmental objectives
- Engage with our suppliers over their environmental performance and work with, and support, them to reduce the environmental impacts of our products

This Policy will be communicated to all persons who work on behalf of the Company and displayed at suitable locations so as to be available to the general public and interested parties. All employees, customers and contractors are invited to contribute ideas for better environmental practices on our sites.
